

School of Human Ecology – 2009 Ice Cream Social

Austin, Texas - On Wednesday, September 9, 2009 the School of Human Ecology was pleased to host faculty, staff, alumni and current students (approximately 400 in attendance) with our first ever Back-to-School Ice Cream Social. We were pleased to have in our attendance many of the alumni that helped shape what Human Ecology is today. Alumni including: Raye Virginia Allen (1951), Lynette Brannon (1970), Glynda Harrell Eschle (1963), George McGonigle (1949), Martha Ann McGonigle (1949), Betty Sue Newton (1974), Sue Hahn Saathoff (1976), Pauline Garcia Sherman (2001), and Beverly Thomas (1951) were seen socializing with students and staff alike, while enjoying scoops of Amy's ice cream on the courtyard of Gearing Hall. The less than stellar weather did not stop all from enjoying the festivities, which included getting a picture taken in front of the courtyard with the UT tower as a wonderful backdrop. When all was said and done, many left with the satisfaction of delicious sweets and a smile on their faces.
